Company Strengths

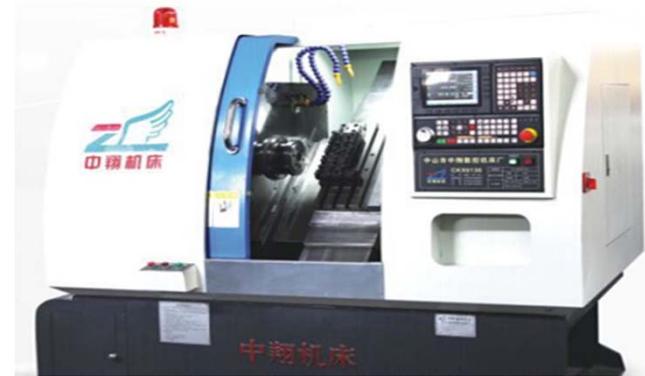

- Professional, Systematic, Cooperative, Dedicated
- Focus on producing circular push pull connectors

Equipment

Japan STAR SB-20J

CNC machine

Milling machine

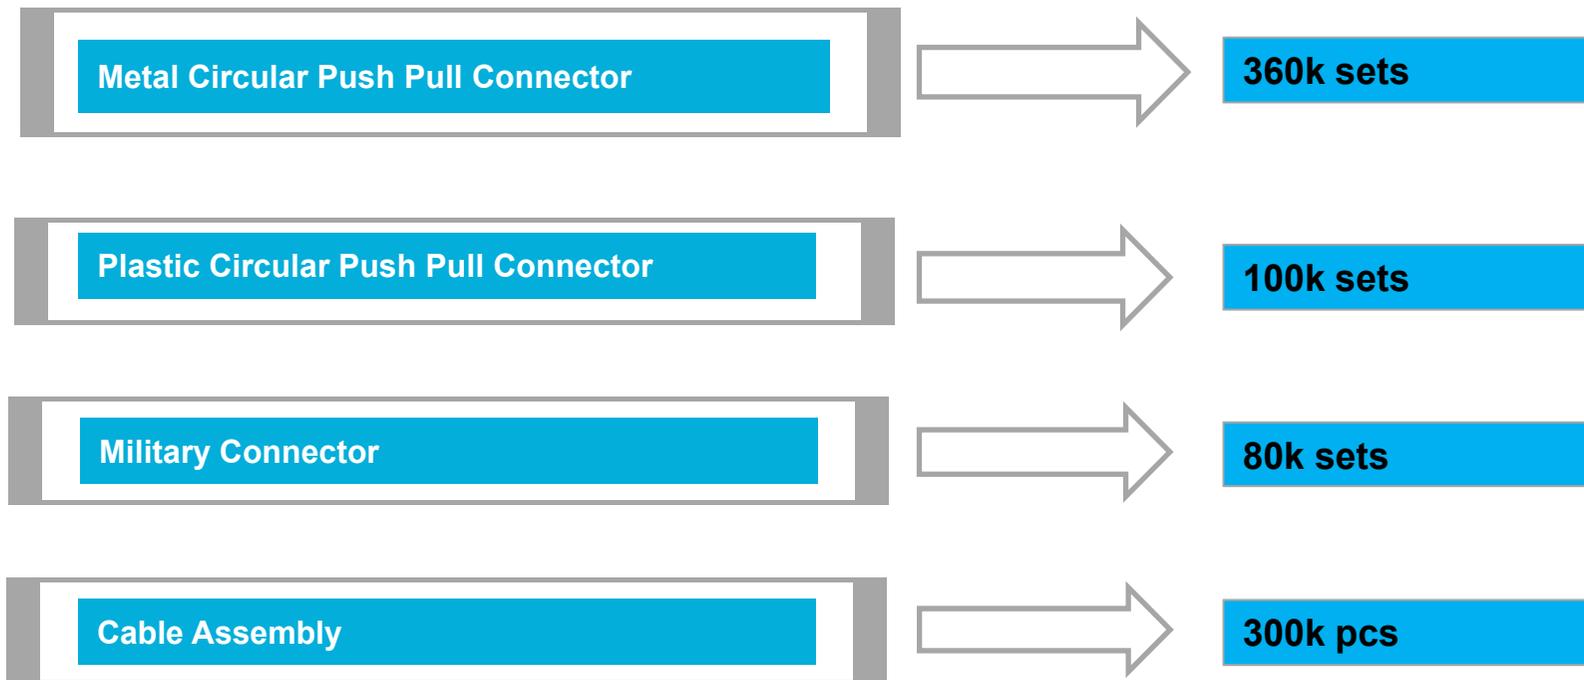

Injection molding machine

Comprehensive selection of cable forming dies

Factory Annual Production Capacity

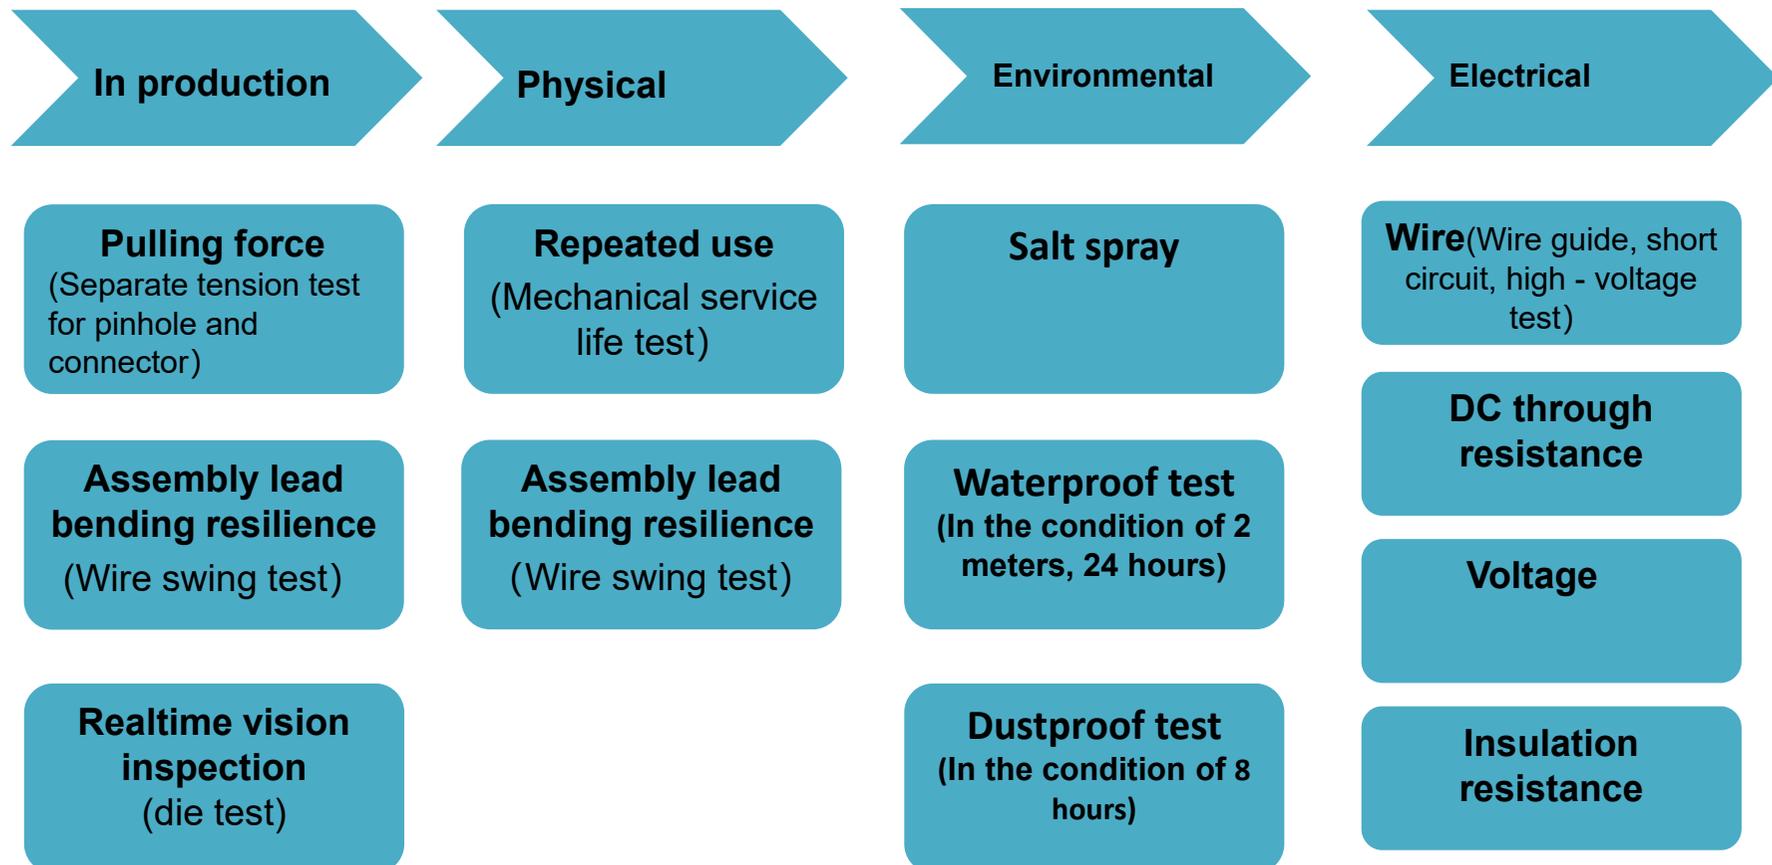

Quality Control

-  Deliberate and controlled process design
-  Strict incoming, production, and outgoing inspection
-  After-sales service and customer feedback

Quality Control Tests

Typical Projects

Overseas: In 2018, we assembled more than 10,000 cables for the Israel company which engage in Medical Equipment.

Overseas: In 2018, we cooperated with wellinq company, 30,000 sets connectors help client save the cost.

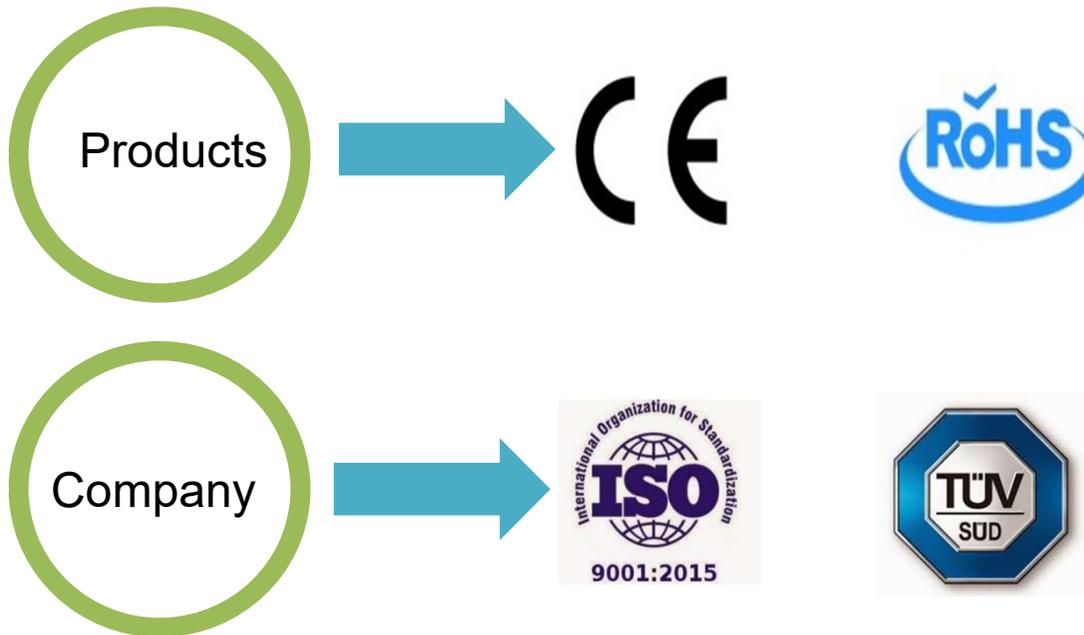

Overseas: SHEKEL is the largest company in Israel for measurement products, they purchase 12000 sets every year for the weighing apparatus for premature babies. (Medical equipment).

In 2018, produced 450,000 sets connectors and more than 300,000 cables assemble.
